TRODAT BESTSELLERS

CLIMATE-NEUTRAL.
AS STANDARD.

After the overwhelming success of the Original Printy 4.0, Trodat has extended its range of products which offer climate neutrality as standard, thus maximising the positive impact on the environment. Since 2013, Trodat produces more than 70 of its best-selling products with the maximum, technically possible content of pre- & post-consumer recycled plastic to reduce their CO_2 footprint.

Only in the last step, the remaining, inevitable CO_2 footprint of these products is offset by investing in Gold Standard climate protection projects recommended by the WWF®. As a result, Trodat offers its best-selling products climate-neutral, as standard!
